

PUBLIC SAFETY ALERT

West Nile Virus Detected

West Nile **Virus** has been detected in traps throughout Weber County during the 2026 Season:

We encourage all residents to protect themselves from West Nile **Virus** by doing the following:

- Use insect repellent, according to label directions.

- Empty any water holding containers in yard which do not need to have water in them and change out the water in bird baths and horse troughs weekly.

- Wear long-sleeved, loose fitting, light-colored clothing.

- When possible, avoid prolonged outdoor activity at dawn and dusk.
